I understand with all the hype and fanboys, it wasn't going to be hard to sell y our phone.

A good combination can make a huge difference to the heat you feel on the other side.

so why can't I get one?

Perhaps you're unaware that we share media with you.

I need all the preservatives I can get.

perhaps you didn't know there isn't a Canadian edition of every magazine and TV channel you have.

News is finally starting to percolate through the web that Rogers, the only GSM provider in Canada is working on bringing the iPhone to Canada.

Perhaps you're unaware that we share media with you.

Yes I know your phone is groundbreaking, yes I see it's popular and does many great things, yes I know it's available now.

Perhaps you're unaware that we share media with you.

Yes I know your phone is groundbreaking, yes I see it's popular and does many great things, yes I know it's available now.

What's worrying about said news, is there aren't any definite times, there isn't anything certain, and there's no excuse for the delay.

hey the iPods were expensive but you had no problems selling them.

I don't think anyone saw that coming.

Around that temperature or below outside - open windows and doors to cool the place.

I need all the preservatives I can get.

A good combination can make a huge difference to the heat you feel on the other side.

I think those wonderful glossy iPhone commercials should have an apology to Canadians, or at least mention that we should put it out of our minds for the time being while things are worked out.

Take away what makes the Stampede and you've basically got nothing.

I don't think anyone saw that coming.

You can't buy an iPhone in Canada.

Well, there it is, we see your TV spots, we hear the internet speak about the iPhone, we flip over our favourite magazines and find an iPhone ad on the back.

What yuppies turn into when they have children and one of them stops working to stay home with the kids.
